

ENGLISH
Grade 4

TASK 1 . Read the text and circle the correct answer.

(5 points)

Hummingbirds are amazing little birds. They are the smallest of all birds and weigh less than even a penny. The Bee Hummingbird, at more than two inches long, is the smallest bird in the world.

Unlike most birds, hummingbirds have iridescent feathers. Iridescent feathers shine in the sun. Hummingbirds are combinations of green and red or green or blue. Others are violet, orange, golden, silver or other combinations only Mother Nature could dream up. All hummingbirds have long bills to insert into flowers. Hummingbirds are the only birds that can fly backwards.

Hummingbirds differ from other birds in that they drink nectar from flowers. You can attract hummingbirds to your yard with feeders that are filled with sugar water. These feeders are usually bright red in colour because hummingbirds are attracted to red.

1. Hummingbirds eat.....
 - a. Berries
 - b. Insects
 - c. Flower nectar
 - d. The story doesn't say
2. Compared with other birds, hummingbirds are.....
 - a. Lighter
 - b. Larger
